Index

In preparing this index it has been hoped to produce a tool which would render the Proceedings of maximum practical usefulness for future research. Not only names but also events, ideas, and the like are brought out, with many cross-references. Particular attention is called to the valuable department, "New Jersey in Print," which records in each issue the numerous current publications about New Jersey. The subject matter of all such books, pamphlets, and articles has been indexed carefully. Subjects not concerning this state have been largely excluded; consequently it will be understood that the general references below (e.g. Antiques) relate in some way to New Jersey. Items describing current events are not indexed, nor are authors' names in the cases of publications cited or listed.
